

## Georgina Point Maritime testimonial

I have known Rob Gray for over thirty years working together in the marine industry and I am pleased to write this testimonial for him.

Raven Marine Services has worked with Rob in the past as a marine wholesale distributor and over the years he has always exhibited the utmost in professionalism, knowledge and reliability. More recently, Raven Marine are pleased to use his services as Georgian point Maritime, and we have also recommended him to many of our customers for their vessel relocation and education needs.

We value Rob as a competent and trustworthy provider of safe and knowledgeable service for vessel deliveries and client familiarisation of their vessels.
